Aluminum Fencing

RESIDENTIAL | MIDGRADE | INDUSTRIAL

Introducing Shilo™ ...

You asked for access to quality Aluminum fencing at affordable prices. We listened, and here we are with Shilo!

Aside from the unmatched quality of our products, Shilo also provides you the best value for your money. Shilo is manufactured from high quality 6005 aircraft aluminum, and is tested to 35,000-PSI yield strength—making it stronger than many steel alloys. Shilo's wall thickness is also heavier than many of its competitors, resulting in a more substantial horizontal and vertical impact strength than most its rivals.

Shilo is all about strength, selection, beauty, durability, and affordability. With our LIFETIME LIMITED WARRANTY, and our time-tested experience in the industry, you can rest assured that Shilo will be with you every step on the way.

Available in four distinct styles:

Available Choices:	 CLASSIC	 WESTMORLAND	 BLUE RIVER	 CHANDLER
Exposed Bottom Picket	✓	✓	✓	✓
Flush Bottom	✓	✓	✓	✓
2 Rail	✓	N/A	✓	✓
3 Rail	✓	✓	✓	✓

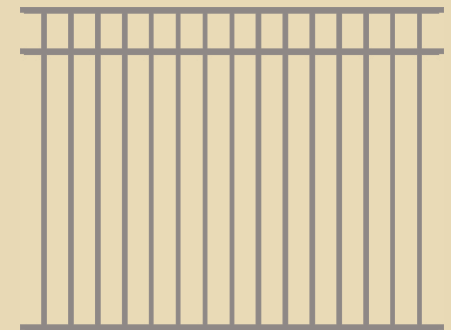

Classic Style

Shilo is a product manufactured directly by the extruder. Ask Shilo's competitors if they extrude and powder-coat their own Aluminum products—most likely, their answer will be "No." This makes these so-called factories nothing but assembly companies with flashy brochures and brand names.

Blue River Style

Beware. Factories that purchase profiles and pay someone else to powder-coat adds costs that you must bear. Shilo eliminates these intermediary layers so we can provide you with the best quality fencing product at the most reasonable price.

EXPOSED PICKET

Style Selection Guide

You are probably aware that Aluminum profiles and powder coating processes have been around for many years. Shilo's roots can be traced through decades of time-tested powder coating operations through the window extrusion industry. This is why all the fencing products from Shilo are brought to you bundled with a LIFETIME LIMITED WARRANTY.
